

Serving. Training.
Energizing Partnerships.

KENYA

Partnerships

CBM's history of partnership in Kenya began in 1970 when the African Christian Church & Schools (ACC&S) contacted Canadian Baptists with a need for leadership development. Similarly, in 1978 the Africa Brotherhood Church (ABC), which had no previous relationship with an overseas mission organization, also invited Canadian Baptists to help in this area. The ABC is now itself a mission-sending organization, supporting and training leaders in Rwanda. Today, CBM continues to support leadership development with both partners.

Since the early 1980s, The Sharing Way (TSW), CBM's relief and development department, has worked with our Kenyan partners in sustainable community development to address basic human needs, provide small business loans and build community capacity.

Ruth Munyao is The Sharing Way's Development Program Manager for Africa. Ruth works throughout the continent including with the ABC and the ACC&S. From assessing

development needs to assisting with project design, implementation, evaluation, and accountability, Ruth plays a crucial role as a face-to-face encouragement to our partners. She continues the late Sam Mutisya's legacy as TSW's representative in Africa, helping our partners do the best work they can in manifesting the values of God's kingdom in vulnerable communities.

Our Partners

CBM has forged three dynamic partnerships in Kenya:

1. Since 1970, CBM has partnered with the African Christian Church & Schools, originally under our groundbreaking 'Taskforce' approach. The ACC&S began in 1903 through the ministry of the African Inland Mission among the Kikuyu. It has worked as an independent body since 1948. The denomination has had a strong impact among the Kikuyu people and currently has 140 churches with over 150,000 members as well as many schools throughout Kenya.
2. Based out of the Machakos region, the Africa Brotherhood Church is an indigenous Kenyan denomination. The ABC began in 1945 with the vision of an indigenous African church. Today, there are over 1.5 million members in the ABC churches. The ABC also runs over 700 schools, from pre-primary to polytechnical levels.
3. A third, more informal, ministry reaches out to the Somali people in Kenya, most of whom are refugees living in the Northeast Province and in the Eastleigh district of Nairobi.

Your contribution at work

Leadership Development

Carey Theological College and CBM have partnered for many years in this area. Initially our groundbreaking Certificate in Ministry program (and later Bachelor and Doctorate programs) enabled grassroots pastors and church leaders to further develop their ministry and leadership skills to meet the needs of their growing ministry.

Community Development

The Sharing Way supports a number of projects to improve the life of local communities in Kenya. Community development activities implemented by our partners include: agro-forestry support, food security

One of the biggest challenges facing Kenya is the AIDS pandemic. More than two decades into this crisis, 8,000 people still die from this disease every day. Over 12 million children in Africa have lost one or both parents due to AIDS. Thousands

of new infections occur daily, with girls and young women most at risk. Through the Guardians of Hope Program, CBM works to provide some of the most significant care for people affected by HIV and AIDS.

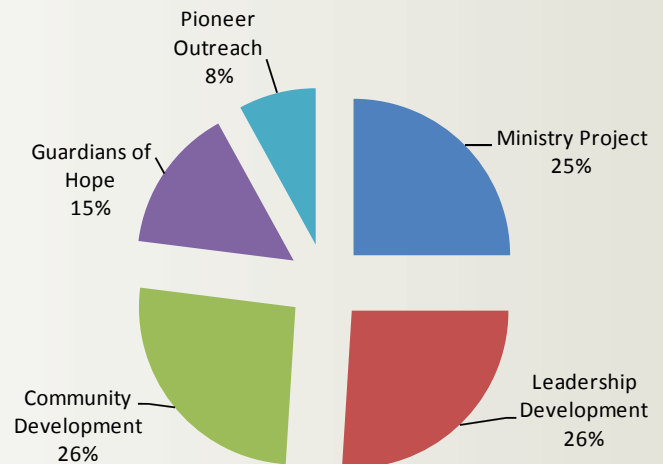

and agricultural improvement, water supply, micro-enterprise development, basic healthcare, education and leadership training. These projects reduce poverty by increasing each community's capacity for sustainable development.

Guardians of Hope Program (HIV and AIDS related ministries)

This ministry is directed towards HIV and AIDS prevention and education for vulnerable communities, supporting pastors in offering appropriate care for AIDS-affected families, providing financial and social support to AIDS orphans and their guardians, and encouraging long-term community development to reduce the threat of HIV and AIDS.

Pioneer Outreach

CBM has been engaged in outreach with the Somali refugee population of Kenya since 1998. Currently two Global Field Staff families are working in this area. The Africa Brotherhood Church ministers beyond Kenyan borders. Through CBM Global Field Staff, we also partner with the ABC to minister and train rural pastors.
