

Shared Hopeful Gifts

Bring Hope Around the World

We know your church wants to make a difference this Christmas! Together, your congregation can give a gift where it's most needed, shining as a witness to the real-life Good News of Jesus for the hope and healing of the world.

Feed a Family

Around the world, food insecurity and poverty are issues affecting millions of people, especially in low-income regions. Without reliable access to nutritious food, families face significant challenges—ranging from health problems to children's developmental delays and difficulty maintaining steady employment or education. The cycle of hunger and economic hardship deepens inequality, making it harder for communities to achieve sustainable growth and well-being.

What can be done to help?

Projects in various countries are tackling these challenges with different initiatives. Some provide immediate relief, like emergency food supplies for refugees in South Sudan. In El Salvador, efforts focus on long-term sustainability, including farming cooperatives, business training, conservation agriculture, and family gardens. Initiatives in 11 countries are addressing key needs to support family wellbeing.

A Hopeful Story

As the mother of a typical family in rural Bolivia, Gladys says: "Since I have children, I worry about what I have to give them, sometimes we don't have enough and [my husband] has to travel to work elsewhere to bring a little income."

But there is hope. CBM's partner, OBADES, has been teaching the skills of beekeeping to help households increase their incomes.

Gladys says: "I always want my children to be better than us, to have a better life. Now with the bees, I am grateful; we hope to take advantage of it very well to improve the life in my family." Furthermore, Gladys is a community leader who encourages her neighbors to get more involved in opportunities like this to make better living conditions for their families and community.
